

children's flight of hope

WE FLY FOR THEIR LIVES

## Why Join Our Impact Story?

Children's Flight of Hope ensures that distance and the cost of travel are not barriers to life-changing, life-sustaining, or life-saving care. That is why we provide flights to centers of health excellence for children in medical and financial need. Through the kindness of others, we ease the emotional, financial, and medical burden to families as we provide flights for the child and parent or guardian for the duration of the healthcare journey, no matter the distance or frequency.

Children's Flight of Hope is grateful for the trust and resources that have been invested in our impact story and growth. Yet, there are many more families who need our help and we are committed to increasing the number of children and families we serve. There are many opportunities to consider as part of our impact story. Please join us in saving and improving the lives of children by providing access to vital medical care. Together, we "fly for their lives!"

## OUR IMPACT

### Meet Ty

Ty was born prematurely at just 23 weeks with many concerns. Among them, his esophagus was sealed for a considerable length, making his condition even more complex. Ty's doctors referred him to Boston Children's Hospital, the only hospital in the U.S. that could perform the life-changing surgery required to reconnect Ty's esophagus. After many visits, surgeries, and procedures, Ty's esophagus is now connected, and he is smiling bigger than ever!

"Our family is forever grateful for the blessing of Children's Flight of Hope. Thank you to everyone who supports this organization. You are changing children's lives and giving families opportunities to get our kids the best care no matter the distance."

-Ty's Mom
